Alternative Treatments for Dementia

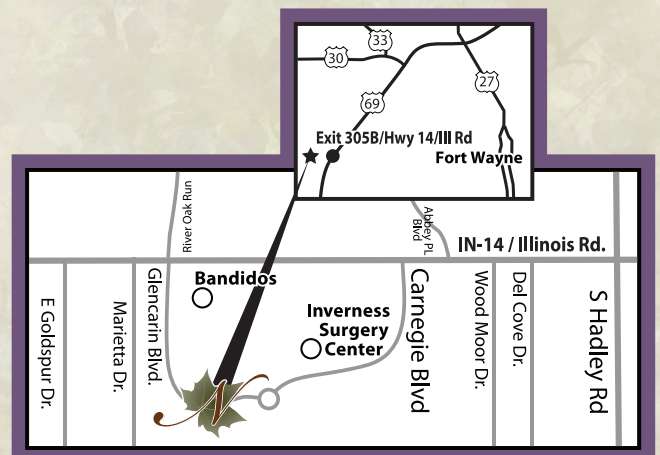

Presented By: Dr. Christina Stemmler, Fort Wayne Neuropsychology

Monday, October 28th 4:30-6:00 PM

There are many studies going on about alternative treatments for dementia such as light and sound therapy, diet and exercise and many more. Join us as we discuss some of this new research and get updated information about what is going on in new and alternative forms of treating dementia. A light dinner will be served.

Our Community Features:

- Three secure, homelike neighborhoods & beautiful courtyard with walking paths, salon & chapel
- State-of-the-art motion sensing technology in all resident suites
- "New Directions"® activities & programming tailored to each resident
- Chef prepared meals & snacks for each individual's tastes and diets

Space is limited for this complimentary event.
RSVP early at **260-420-1866** or online at
NorthWoodsMemoryCare.com.
